

Holiday Study for My Groups in Programming Language II

(The aim of this study is to keep you active and ready during this period. It is not compulsory to do this study.)

Please firstly follow the related content (Sections 5-8) from the Deitel's book. Then you should prepare the answers for the questions at the end of sections below.

5-) C Functions: Page 186-193, Exercises 5.8-5.48

6-) C Arrays: Page 242-251, Exercises 6.6-6.37

7-) C Pointers: Page 295-301, Exercises 7.7-7.26

8-) C Characters and Strings: Page 348-353, Exercises 8.5-8.41

Studies will be delivered at the first lab course at the end of the holiday (3 weeks or more). You are expected to prepare the codes in computer environment. This study is prepared only for students in my group (Dr. Caner Ozcan). Other students can do homework for their own development. Try to solve as many of the questions as possible. Please do not e-mail about this assignment and its solution. In case the study is done adequately, extra support with the assistant students in the laboratory studies will be continued.
